Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Sunday 13 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Very warm and sunny. Cloudier with some rain far north.

Today:
It will be rather cloudy in the northwest and far north with some rain or drizzle, turning heavier in northwest Scotland later. Elsewhere, a dry day with sunny periods and becoming very warm inland.

Tonight:
Rain moving southeast across northern areas, followed by clear spells and scattered showers. Central and southern parts dry with clear periods, but low cloud and mist affecting some western coasts.

Monday:
Sunny and hot in southeast England. Band of cloud and some rain or drizzle over northern England and Wales sinking south and fading. Breezy with scattered showers in the north.

Outlook for Tuesday to Thursday:
Fine and dry for most at first, but rain in the northwest on Tuesday. Very warm or hot in the south with thundery showers developing on Wednesday and into Thursday.
